AutoDose Misting System

Automated Odor Control with Misting Technology

The AutoDose Odor Control Misting System features innovative and user-friendly misting technologies. It can be used to control odors and help mask dumpster smell, even smells caused by higher temperatures. The AutoDose Misting System easily handles trash chutes and dumpsters, creating a sanitary, odor-free environment for workers.

Use the AutoDose anywhere odor control is necessary, including food service, lodging, food processing, lift stations, waste processing and water treatment.

Hydro Systems' AutoDose pump systems offer great flexibility and can be customized to meet your company's specific business strategies.

- Runs on AC Power
- Choice of days, time (AM or PM), and dose amounts
- Up to 24 dosing periods per day
- Water resistant cabinet
- Easy to program timer with pin password lockout
- Internal backup battery maintains program even when main power source is disconnected or inoperative
- No tools required for maintenance of pump assembly

Keep Your Customer's Facility Smelling Fresh

With the AutoDose Misting System, cleaning is easy. With the spray nozzle attachment, deodorizing the dumpster area becomes the easiest part of the job!
