

FM-800 Flush Manifold

Safely and Reliably Flushes Chemical Lines

Reliability is top priority with the FM-800, Hydro's latest Flush Manifold product. Its design incorporates fewer leak paths, all threaded seals and a more flexible, robust water inlet connection.

The expandable manifold consists of molded modules that easily thread together to accommodate a variety of installation configurations. As your demands increase, so can the capabilities of your Flush Manifold. The manifold also has multiple proven components to optimize safe performance for the life of your dispenser:

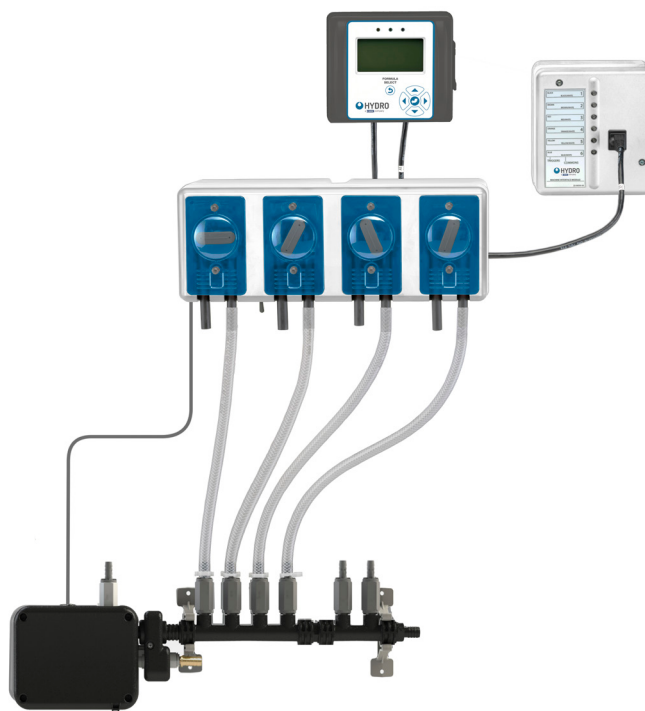

- Industry standard ball and spring check valves prevent unwanted chemical mixing
- An integrated flow switch avoids incomplete dispensing with water flows under 0.65 GPM
- Straight and 90° hose barbs with a push-to-connect interface ensure an easy and hassle-free install
- A swivel feature that allows the unit to be adjusted at 45 degree increments from the vertical for added flexibility

Benefits

- Easily connects to most Hydro dispensing systems
- Reduces stress on the peristaltic pump system by using water to transport products over long distances
- Optimizes safety and cleaning results — avoids potentially hazardous chemical mixing by flushing with an adequate water supply between dosages

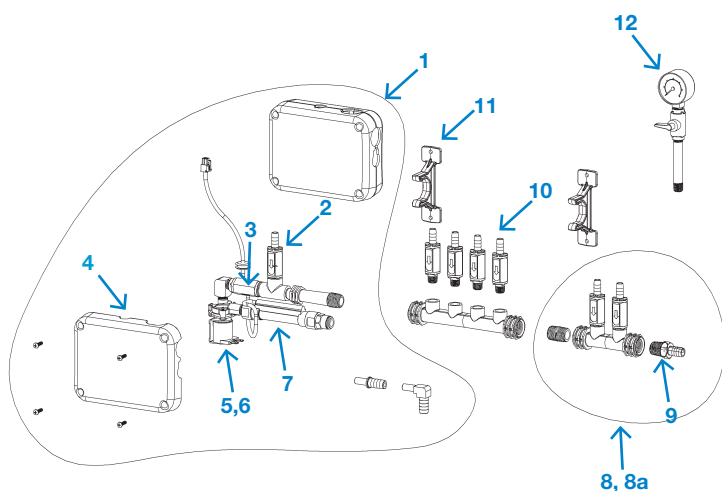

Compatible with all Hydro controllers including Eclipse and Total Eclipse

Parts Reference

Ref. No.	Description	Part Number
1	Inlet Manifold Kit	00-03608-00XT
2	Vent Port Check Valve, White	41-04807-00
3	Inline Check Valve	41-06508-44
4	Cover Kit with Screws	10096138XT
5	Solenoid Valve Rebuild Kit	15-03778-00
6	Solenoid Valve Replacement	49-06472-10
7	Flow Switch Replacement Kit (Includes Fitting and Wire Harness)	10098690
8	2 Port Add-On Kit (Includes Check Valves and End Fittings)	00-03608-01XT
9	Discharge Barb	41-04996-01
10	Chemical Port Check Valve	41-04207-46
11	Wall Hanger Kit (2 Hangers with Screws and Anchors)	10096115
12	Pressure Gauge Kit	10098692

Model No.	Description	Part Number
FM-802	Modular Flush Manifold 2-product	00-03608-02XT
FM-804	Modular Flush Manifold 4-product	00-03608-04XT
FM-806	Modular Flush Manifold 6-product	00-03608-06XT
FM-808	Modular Flush Manifold 8-product	00-03608-08XT
FM-800	Modular Flush Manifold 2-product add-on	00-03608-01XT
