

HydroMix

Line Cleaning Dispenser for Flock or Gilt Treatment

Reduce your need for antibiotics by using the HydroMix to clean your water lines. Clean water lines help your flock stay healthy because they are no longer being exposed to higher levels of bacteria often found in untreated lines.

It is ideal for in-between flock or gilt treatment.

The HydroMix is a wall-mounted, push-button dispenser. This line cleaning injector utilizes venturi technology and ranges from 1:4 to 1:316. It can easily hit desired 2% and 3% injections.

- Garden hose connection
- Twist lock
- Compatible with most common chemicals
- Affordable, low maintenance unit
- Flow Rate: Requires at least 3.5 GPM

Chemical Compatibility

- Chlorine
- Citric Acid
- Hydrogen Peroxide
- And more!

Approximate Dilutions at 40 PSI for Water-Thin Products (1.0 CP)

Tip Color	Diameter	Ratio	Per Eductor Flow	Percentage
No Tip	.187	4:1		23.50%
